

# Web Design

Instructor: Mitch Kratochvill

(563)-552-5260

[mkratochvill@dbqschools.org](mailto:mkratochvill@dbqschools.org)

## Course Description

In this course we start out by using Photo Shop to touch up photographs, edit pictures, change scanned graphics and draw vector shapes. The goal is to know the basics of graphics so that the student can create a web site. We will utilize Dreamweaver to generate the website.

## Standards

This course is designed in alignment with the Iowa Core Curriculum 21st century technological literacy skills, as well as the ITEA Standards for Technological Literacy.

## Assessments

Assessments may include, but not limited to: formative, summative, peer, and self-assessment.

## Content

Class topics may include, but not limited to:

- Digital Equipment
- Photo Shop
- Web Page Construction
- Dreamweaver
- Laser Engraver

## Instructional Strategies

Strategies may include, but not limited to: individual, group, assignments, and projects.

## Resources

Resources may include, but not limited to: books, demonstrations, websites, and handouts.

## Academic/Behavioral Expectations

See General Info attachment.

## Grading Plan

See General Info attachment.

## Communication Plan

Phone number and email address listed above. Also see General Info attachment.
