

Chapter 4: PERSONNEL
Section 7: MISCELLANEOUS

Communicable Diseases

The Board of Directors recognizes that some School District employees with a communicable disease, as defined by the State Department of Health, may be able to attend to their customary employment duties without creating a risk of transmission of the illness to the students or other employees. Therefore, it shall be the responsibility of the superintendent or designee to consult with local or state health authorities when it is deemed necessary to assess an employee's health status for work attendance and apply the guidelines for communicable diseases.
