

Field Trips

The Board of Education recognizes that a properly planned, well-conducted and carefully supervised field trip with significant value may be an important part of the curriculum of many classrooms.

All field trips shall have the approval of the building principal in advance of the trip. Field trips outside the continental United States require approval of the Superintendent or designee.

Consent of each pupil's parent or guardian and approval of the superintendent or his/her designee is required in advance of any field trip.
